Index of Authors

Numerals followed by the letter A refer to Abstracts of Communication read at Meetings for Original Communications of the Nutrition Society

Aaron, J. I. *see* Stubenitsky, K. 130A.
Abel, G. *see* Page, S. 97A.
Adlercreutz, H. *see* Bowey, E. A. 161A.
Aguilar, P. B. Faintuch, J. & Hardy, G. *The stability and cytoprotective effects of N-acetylcysteine in cervical cancer patients undergoing radiotherapy* 107A.
Ah-Sing, E. *see* Fereday, A. C. 39A.
Ah-Sing, E. *see* Slevin, K. A. 40A.
Aherne, A., Polet, P., Atkinson, E. A., Stephens, S., Day, J. E. L. & Rogers, P. J. *Lack of preference-reinforcing effects of different sugars* 131A.
Aherne, A. M. *see* Day, J. E. L. 84A.
Aherne, S. A., Wilson, A. M. & O'Brien, N. M. *Flavonoids: their protective role in cholestan-3β-5α-6β-triol induced toxicity* in vitro. 5A.
Aherne, S. A., Woods, J. A. & O'Brien, N. M. *The effect of flavonoids on background and hydrogen peroxide-induced DNA damage* 162A.
Aitken, R. P. *see* Palmer, R. M. 75A.
Al-Dallal, Zuhair S. M., Margetts, Barrie M. & Jackson, Alan A. *Adolescent haemoglobin is predicted by maternal haemoglobin and birth weight in South Asian adolescent girls born in Southampton* 67A.
Al-Othman, A. M., Belton, N. R. & Kirk, T. R. *Iron intake and iron status in young children in Edinburgh* 134A.
Alberti, K. G. G. M. *see* Daly, Mark. 47A.
Alexander, J. Wesley. *Bacterial translocation during enteral and parenteral nutrition* 389.
Ali, Simon A., Lowe, Nicola M., Jack, Catherine I. A., Reid, Martin D., Beattie, John H., King, Janet C. & Jackson, Malcolm J. *Zn absorption in the healthy elderly* 69A.
Allison, S. P. *see* Stephen, A. D. 89A.
Allsopp, A. J., Sutherland, R. M. & Wootton, S. A. *The effects of sodium ingestion on heat acclimation responses* 31A.
Allsopp, A. J. *see* Bilson, J. L. J. 9A.
Alnwick, David J. *Combating micronutrient deficiencies: problems and perspectives* 137.
Alvarez de Toledo, Sonsoles Ysart Y. *see* Requejo, Anne M. 16A.
Anderson, Annie S., Kemmer, Debbie, Marshall, D. W. & Eley, Susan. *Changes in dietary intake associated with marriage or cohabitation* 57A.
Anderson, A. S. *see* Eley, S. 167A.
Anderson, A. S. *see* Lean, M. E. J. 136A.
Andrés, Pedro *see* Ortega, Rosa M. 21A.
Andrés, Pedro *see* Requejo, Anne M. 16A.
Andrews, J. F. *Leptin: energy regulation and beyond to a hormone with pan-physiological function* 409.
Andrews, J. F. *see* McLoughlin, Johanna. 6A.
Andrews, J. Fred *see* Porter, Richard K. 455.
Antipatis, C., Thompson, M. G., Palmer, R. M. & Ashworth, C. J. *The effect of maternal vitamin A status on the ATP/ubiquitin-dependent proteolytic pathway in fetal and neonatal development in the rat* 73A.
Arciniegas, Ester L. *see* Cioccia, Anna M. 49A.
Ash, Ruth & Nelson, Michael. *Iron status and habitual physical activity in UK adolescent girls* 15A.
Ash, Ruth & Nelson, Michael. *Iron status and cognitive function in UK adolescent girls* 81A.
Ashworth, Ann. *Nutrition interventions to reduce diarrhoea morbidity and mortality* 167.
Ashworth, Ann *see* Haider, Rukhsana. 63A.
Ashworth, C. J. *see* Antipatis, C. 73A.
Atkinson, E. A. *see* Aherne, A. 131A.
Atkinson, Elizabeth A. *see* Polet, Paulan. 83A.
Attanasio, Andrea M. *see* Blum, Werner F. 477.
Avornyo, F. K. & Miller, E. L. *Comparison between the* in situ *and the Cornell methods of estimating protein degradability in a variety of ruminant feedstuffs* 153A.
Ayala, Jose *see* Pinos, Juan M. 80A.

Backwell, F. R. C. *see* Bernard, L. 42A.
Baig, M. Y. & Miller, E. L. *A spreadsheet programming model for linear and stochastic feed formulation problems* 163A.
Baildam, A. *see* Harvie, M. N. 103A.
Baker, A., Flynn, A., Cashman, K., Harvey, L., Majask-Newman, G. & Fairweather-Tait, S. *The effect of dietary copper on bone metabolism in healthy adult males* 156A.
Baker, A. *see* Taylor, R. M. 112A.
Baldwin, C., Shaw, C. J., Dewit, O. & Elia, M. *Nutrient deficiencies during home enteral feeding* 95A.
Baldwin, C., Shaw, J., Dewit, O. & Elia, M. *Circulating concentrations of vitamins D and C in a cross-sectional group of patients on long-term tube feeding at home or in residential care* 109A.
Baldwin, C. *see* Shaw, C. J. 109A.
Ball, D., Campbell, I. G., Leiper, J. B. & Maughan, R. J. *The effect of drink composition on deuterium accumulation in men with spinal cord lesion* 32A.
Ball, E. *see* Mathias, P. M. 138A.
Ball, P. A. *see* Booth, D. L. 98A.
Ball, P. A. *see* Fox, J. C. 97A.
Ball, P. A. *see* Prasad, G. S. 96A.
Ballevre, O. *see* Decombaz, J. 21A.
Bannerman, E., Pendlebury, J., Phillips, F. & Ghosh, S. *Health-related quality of life after percutaneous endoscopic gastrostomy* 115A.
Barber, M. D., Fearon, K. C. H. & Ross, J. A. *Relationship of serum levels of interleukin-6, soluble interleukin-6 receptor and tumour necrosis factor receptors to the acute phase protein response in advanced pancreatic cancer* 105A.
Barber, M. D., Ross, J. A. & Fearon, K. C. H. *Changes in weight, albumin and C-reactive protein in advanced pancreatic cancer* 102A.
Barber, Matthew D., Ross, James A. & Fearon, Kenneth C. H. *The anti-cachectic effect of fatty acids* 571.
Barcena, Ricardo *see* Pinos, Juan M. 80A.
Barker, D. J. P. *see* Jackson, A. A. 76A.
Barnes, A. R. *see* Wyatt, J. 98A.
Barnes, E. *see* Doyle, M. 144A.
Barnett, Y. A. *see* Brennan, L. A. 159A.
Barrett, Jennifer H., Draper, Alizon, Calvert, Claire, Cade, Janet & the Women's Cohort Study Steering Group, UK. *Identifying patterns of food consumption among women in the UK Women's Cohort Study: preliminary results* 66A.
Barrett, Jennifer *see* Cade, Janet. 54A.
Barth, J. *see* Cooling, J. 127A.
Bartlett, F. *see* Taylor, R. M. 112A.
Barton, J. R. *see* Lawson, R. 91A.
Bassey, E. Joan, Littlewood, Julie J. & Reynolds, Brenda E. *Randomised controlled trial of supplementation of Efacal v. calcium on bone mineral density in post-menopausal women* 28A.
Bates, C. J., Mansoor, M. A., Van Der Pols, J. C., Prentice, A., Cole, T. J. & Finch, S. *Plasma total homocysteine in 972 people aged 65 years and over, representative of Britain, in a National Diet and Nutrition Survey* 35A.
Bates, C. J. *see* Van der Pols, J.C. 71A.
Baxter, J. P. *see* Reynolds, N. 104A.
Baxter, J. P. *see* Reynolds, N. 107A.

Baxter, J. P. *see* Tait, J. M. 113A.
Beattie, J. H., Wood, A. M., Duncan, J. S., Bremner, I. & Trayhurn, P. *Obesity and hyperleptinaemia in metallothionein-null mice* 125A.
Beattie, John H. *see* Ali, Simon A. 69A.
Beattie, S. *see* Taggart, A. E. 159A.
Beavan, Siân R., Prentice, Ann, Stirling, Dorothy M. & Yan, Liya. *Differences in undercarboxylated osteocalcin, a maker of vitamin K status between British and Chinese women* 72A.
Beigg, C. L. *see* Stephen, A. D. 89A.
Belch, J. J. F. & Muir, A. *n*-6 and n-3 *Essential fatty acids in rheumatoid arthritis and other rheumatic conditions* 563.
Bell, J. D. *see* Goldstone, A. P. 100A.
Bell, J. D. *see* Goldstone, A. P. 100A.
Bell, J. D. *see* Rico-Sanz, J. 103A.
Belton, N. R. *see* Al-Othman, A.M. 134A.
Bennett, F. I. *see* Jackson, A. A. 52A.
Bennett, R. H., Vernon, R. G. & Soret, B. *An* in vitro *study of glycerol-3-phosphate dehydrogenase (E.C. 1.1.1.8; GPDH) activity as a marker of triacylglcerol synthesis in ovine adipocytes taken from animals at different stages of development* 41A.
Bennett, T. *see* Sheehan, D. 158A.
Benzie, I. F. F., Szeto, Y. T. & Strain, J. J. *Green tea and* in vivo *antioxidant status; post-ingestion changes in plasma ferric reducing/antioxidant power (FRAP) confirm absorption and systemic distribution of polyphenolic tea antioxidants* 149A.
Bernard, L., MacRae, J. C., Wilson, D. L., Bruce, L. & Backwell, F. R. C. *Amino acid and peptide absorption across the ovine gastrointestinal tract: a dietary comparison* 42A.
Berraondo, B., Frühbeck, G., Marti, A., Fernandez-Otero, M. P. & Martinez, J. A. *The administration of a β_3-adrenergic agonist decreases leptin expression in a diet-induced obesity model* 13A.
Berry, D. *see* Simpson, E. J. 143A.
Best, C. T. *see* Mohebbi, H. 8A.
Beveridge, Mark J. *see* Matthews, James C. 257.
Bilson, J. L. J., Murphy, J. L., Allsopp, A. J., Wootton, S. A. & Williams, C. *Influence of carbohydrate-electrolyte beverage feedings during recovery, on subsequent utilisation during exercise: the use of naturally enriched [^{13}C] glucose* 9A.
Bingham, S. A. *see* Welch, A. A. 154A.
Birch, Leann L. *Development of food acceptance patterns in the first years of life* 617.
Bishop, D. T. *see* Burn, J. 183.
Black, I. L., Tully, A. M., Noone, E., Roche, H. M., Whitehead, A. S. & Gibney, M. J. *Effect of genetic variation of apolipoprotein B (apoB) on postprandial lipidaemia* 150A.
Bloom, S. R. *see* Playford, R. J. 46A.
Bloom, S. R. *see* Brynes, A. E. 100A.
Bloom, S. R. *see* Goldstone, A. P. 100A.
Bloom, S. R. *see* Thomas, E. L. 112A.
Blum, Werner F., Englaro, Piera, Attanasio, Andrea M., Kiess, Wieland & Rascher, Wolfgang. *Human and clinical perspectives on leptin* 477.
Blundell, J. *see* Cooling, J. 127A .
Blundell, John E. *see* Lluch, Anne. 20A.

Index of Subjects

Numerals followed by the letter A refer to Abstracts of Communication read at Meetings for Original Communications of the Nutrition Society

Acarbose
Acarbose increases caecal short-chain fatty acids (SCFA) and uptake into portal vein. **57**, 43A, 1998

Acipimox
The effect of chronic acipimox administration on nutrient selection and energy balance following surgery. **57**, 124A, 1998

Acute lymphoblastic leukaemia
Pattern and timing of excess weight gain in Scottish children treated for acute lymphoblastic leukaemia. **57**, 133A, 1998

Adenomatous polyposis coli gene
APC gene controls crypt fission and not cell division in mice with multiple intestinal neoplasia (MIN). **57**, 45A, 1998

Adipose tissue
Leptin production in human adipose tissue. **57**, 461, 1998

A comparison of lipoprotein lipase activity and gene expression in human and rat adipose tissue. **57**, 39A, 1998

Trans fatty acid levels in adipose tissue of Irish adults. **57**, 164A, 1998

Adolescence
Iron status and habitual physical activity in UK adolescent girls. **57**, 15A, 1998

Prevalence of overweight and underweight in Chinese adolescent girls. **57**, 125A, 1998

Are flavoured vegetables acceptable to adolescents? **57**, 131A, 1998

Nutrient intakes of female adolescents attending a single-sex compared with a mixed secondary school. **57**, 142A, 1998

Factors affecting the erythrocyte folate status of Irish female adolescents. **57**, 147A, 1998

Body weight concerns of 13-year-old Irish boys and girls. **57**, 168A, 1998

Adults
Perceived barriers to healthy eating among nationally-representative samples of European adults. **57**, 10A, 1998

Adult parenteral nutrition: does one size fit all? **57**, 98A, 1998

Studies on the leptin system in adult human subjects from an Aberdeen population. **57**, 127A, 1998

Impact of methylenetetrahydrofolate reductase (MTHFR) genotype and folate status on plasma homocysteine levels in healthy male and female adults. **57**, 147A, 1998

The relationship between plasma and dietary phylloquinone (vitamin K_1) in Scottish adults. **57**, 148A, 1998

Contribution of foods to *trans* fatty acid intake in a group of Irish adults. **57**, 150A, 1998

Ageing
The effects of ageing, vitamin D and growth hormone on ectopic bone formation in the rat. **57**, 2A, 1998

Amino acids
Amino acid metabolism, branched-chain amino acid feeding and brain monoamine function. **57**, 35, 1998

Amino acid and peptide absorption across the ovine gastrointestinal tract: a dietary comparison. **57**, 42A, 1998

Expression of the amino acid transporter GLYT1 in human small bowel and the intestinal epithelial cell line Caco-2. **57**, 44A, 1998

Antibodies
Differences in specific food antibody levels in asthmatic and healthy children. **57**, 51A, 1998

Antioxidants
Free radicals, exercise and antioxidant supplementation. **57**, 9, 1998

Antioxidant micronutrients and gene expression. **57**, 301, 1998

Teas and wines as potentially important sources of dietary antioxidants; an *in vitro* comparison study. **57**, 3A, 1998

Lack of effect of long-term antioxidant supplementation on incidence of upper-respiratory-tract infections in athletes. **57**, 16A, 1998

Differential effects of supplementation with vitamin E analogue on antioxidant enzyme expression in human skin fibroblasts exposed to ultraviolet B. **57**, 34A, 1998

Features of the iron binding antioxidant potential of preterm baby plasma. **57**, 36A, 1998

Fish oil supplementation does not affect plasma antioxidant status. **57**, 42A, 1998

Natural derivatives of phloridzin show potent antioxidant activity in human low density lipoproteins. **57**, 139A, 1998

Green tea and *in vivo* antioxidant status; post-ingestion changes in plasma ferric reducing/antioxidant power (FRAP) confirm absorption and systemic distribution of polyphenolic tea antioxidants. **57**, 149A, 1998

Apolipoproteins
Effect of genetic variation of apolipoprotein B (apoB) on postprandial lipidaemia. **57**, 150A, 1998

Appetite
Appetite, feeding behaviour and energy balance in human subjects. **57**, 341, 1998

Taste, palatability and the control of appetite. **57**, 609, 1998

Taste and appetite regulation in the elderly. **57**, 625, 1998

Effects of glycated and non-glycated cholecystokinin-8 on appetite control in mice. **57**, 13A, 1998

Appetite and food intake during Artificial Nutrition. **57**, 96A, 1998

Use of specific lipid formulation in food preparations can regulate appetite. **57**, 101A, 1998

Arginine

Increased renal arginine turnover after lipopolysaccharide (LPS) treatment in the rat. **57**, 99A, 1998

Ascorbic acid

The effect of ascorbic acid supplementation on H_2O_2-mediated nuclear factor kB (NFkB) activation in human lymphocytes. **57**, 159A, 1998

Asthma

Differences in specific food antibody levels in asthmatic and healthy children. **57**, 51A, 1998

Athletes

Lack of effect of long-term antioxidant supplementation on incidence of upper-respiratory-tract infections in athletes. **57**, 16A, 1998

Weight-and-diet concerns on Finnish female and male athletes. **57**, 30A, 1998

The effect of drink composition on deuterium accumulation in men with spinal cord lesion. **57**, 32A, 1998

Bacterial contamination

Bacterial contamination of feed during home enteral tube feeding. **57**, 109A, 1998

Bacterial translocation

Bacterial translocation during enteral and parenteral nutrition. **57**, 389, 1998

Bicarbonate

Similar recovery of $^{13}CO_2$ and $^{14}CO_2$ in breath during infusion of bicarbonate labelled with ^{13}C and ^{14}C simultaneously. **57**, 52A, 1998

Bile

Influence of dietary fat composition on postprandial plasma bile acid and cholecystokinin concentrations in premenopausal women. **57**, 121A, 1998

Fasting levels of plasma bile acids in Asian vegetarians, Caucasian vegetarians and Caucasian omnivores. **57**, 139A, 1998

Body composition

Changes in body composition following liver transplantation. **57**, 101A, 1998

Comparison of body composition analysis using whole body magnetic resonance imaging, bioimpedance and skinfold anthropometry in lean and obese healthy and Prader-Willi syndrome subjects. **57**, 112A, 1998

Body mass index

Can patients' knowledge of their own weight and height be used to replace measured weight and height in the calculation of BMI? **57**, 165A, 1998

Body weight

Human and clinical perspectives on leptin. **57**, 477, 1998

Weight-and-diet concerns in Finnish female and male athletes. **57**, 30A, 1998

Prevalence of overweight and underweight in Chinese adolescent girls. **57**, 125A, 1998

Weight status, taste preferences and dietary choice. **57**, 130A, 1998

Dietary management in a work-site setting. **57**, 134A, 1998

Errors in self-reported height and weight. **57**, 135A, 1998

Body weight concerns of 13-year-old Irish boys and girls. **57**, 168A, 1998

Bone

The effects of ageing, vitamin D and growth hormone on ectopic bone formation in the rat. **57**, 2A, 1998

Randomised controlled trial of supplementation of Efacal *v.* calcium on bone mineral density in post-menopausal women. **57**, 28A, 1998

Association between present dietary intake and bone health in post-menopausal and elderly Scottish women. **57**, 37A, 1998

The effect of suboptimal and deficient dietary magnesium intakes on bone composition and bone metabolism in the rat. **57**, 155A, 1998

The effect of dietary copper on bone metabolism in healthy adult males. **57**, 156A, 1998

Breakfast

Breakfast composition, waist:hip ratio (WHR) and cardiovascular (CVD) risk factors in middle-aged men. **57**, 48A, 1998

A comparison of expectations about high- and low-fat breakfasts. **57**, 167A, 1998

Breast-feeding

Comparison of breast-milk concentrations and dietary intakes of retinol, carotenoids and a-tocopherol between Irish and Pakistani mothers. **57**, 158A, 1998

Caffeine

Effects of caffeine on performance, metabolism and reaction times during endurance exercise in man. **57**, 6A, 1998

Urinary caffeine concentration after coffee consumption and heat dehydration. **57**, 18A, 1998

Calcium

Genetics, calcium intake and osteoporosis. **57**, 187, 1998

The effect of dietary calcium intake on pyridinium crosslinks of collagen in the rat. **57**, 29A, 1998

Cancer

Diet and cancer prevention: the Concerted Action Polyp Prevention (CAPP) Studies. **57**, 183, 1998

Is crypt cell proliferation a reliable bio-marker of intestinal cancer risk? **57**, 43A, 1998

Changes in weight, albumin and C-reactive protein in advanced pancreatic cancer. **57**, 102A, 1998

The influence of the acute – phase response on energy balance in advanced cancer patients. **57**, 103A, 1998

Relationship of serum levels of interleukin-6, soluble interleukin-6 receptor and tumour necrosis factor receptors to the acute phase protein response in advanced pancreatic cancer. **57**, 105A, 1998

The nutritional consequences of radiotherapy in early laryngeal squamous cell cancer (LSCC). **57**, 105A, 1998

Relationships between physical activity, disease activity and quality of life in inoperable lung cancer. **57**, 106A, 1998

The stability and cytoprotective effects of N-acetylcysteine in cervical cancer patients undergoing radiotherapy. **57**, 107A, 1998

The alternative–dietary practice of a selected group of oncology patients receiving conventional medical treatment. **57**, 114A, 1998

A team approach to the audit of nutritional care of oncology patients. **57**, 116A, 1998

The effect of β-carotene on repair of DNA strand breaks in a human tumour epithelial cell line (HepG2). **57**, 148A, 1998

Effects of oleic acid, eicosapentaenoic acid and docosahexaenoic acid on genotoxin-induced frequencies of sister chromatid exchanges (SCE) in Indian Muntjac fibroblasts. **57**, 160A, 1998

The effect of α- and β-carotene on the survival of human HepG2 and HEL cells challenged with hydrogen peroxide and *tert*-butyl hydroperoxide. **57**, 170A, 1998

Carbohydrate

Influence of carbohydrate-electrolyte beverage feedings during recovery, on subsequent utilisation during exercise: the use of naturally enriched [^{13}C] glucose. **57**, 9A, 1998

Cardiovascular disease

Fetal origins of cardiovascular risk: evidence from studies in children. **57**, 123, 1998

Natural sporting ability, birth weight and predisposition to cardiovascular disorders: study of British former soldiers. **57**, 30A, 1998

Breakfast composition, waist:hip ratio (WHR) and cardiovascular (CVD) risk factors in middle-aged men. **57**, 48A, 1998

Carotenoids

Differences between smokers and non-smokers in the intestinal absorption of carotenoids. **57**, 26A, 1998

Increased cooking stability of all-*trans*-β-carotene in red palm oil using *Murraya koenigii* or *Cnidoscolus aconitifolius* leaves. **57**, 34A, 1998

The effect of β-carotene on repair of DNA strand breaks in a human tumour epithelial cell line (HepG2). **57**, 148A, 1998

The effect of α- and β-carotene on the survival of human HepG2 and HEL cells challenged with hydrogen peroxide and *tert*-butyl hydroperoxide. **57**, 170A, 1998

Cassava

Correlation between taste and toxicity of cassava (*Manihot esculenta* Crantz) roots. **57**, 132A, 1998

Catheters

Occluding material present in central venous and haemodialysis catheters. **57**, 96A, 1998

Treatment of central venous catheter (CVC) sepsis in young children receiving long-term parenteral nutrition. **57**, 97A, 1998

Home parenteral nutrition:- review of protocols to prevent catheter occlusion. **57**, 113A, 1998

Cattle nutrition

Calf serum immunoglobulin estimations requiring minimal laboratory facilities and skills. **57**, 140A, 1998

Cell proliferation

Nutritional and hormonal regulation of hair follicle growth and development. **57**, 195, 1998

Nutritional and hormonal control of skeletal-muscle cell growth and differentiation. **57**, 207, 1998

Nutrient regulation of intestinal proliferation and apoptosis. **57**, 219, 1998

Cheese

Investigating consumer perceptions of the sensory characteristics of ten diverse cheese varieties. **57**, 169A, 1998

Childhood

Daily energy expenditure in free-living children: comparison of Caltrac motion sensors with the doubly-labelled water method. **57**, 11A, 1998

Day-to-day and meal-to-meal variation in energy intake in children. **57**, 11A, 1998

Process evaluation of a health promotion educational resource material for children: Galway Health Project. **57**, 23A, 1998

Fluoride intake in 4-year-old Iranian children. **57**, 51A, 1998

Enteral feeding tolerance in critically ill paediatric patients given adult formula. **57**, 112A, 1998

Home enteral tube-feeding in the community: are disabled children's rights to support services being denied? **57**, 119A, 1998

Validation of the Ramsey formula for estimation of energy requirements in children and adolescents with cystic fibrosis. **57**, 132A, 1998

Pattern and timing of excess weight gain in Scottish children treated for acute lymphoblastic leukaemia. **57**, 133A, 1998

Iron intake and iron status in young children in Edinburgh. **57**, 134A, 1998

Macronutrient intake in normal-weight children at high and low risk of obesity. **57**, 164A, 1998

Evaluation of the dental health intervention programme, DENTV. **57**, 168A, 1998

Cholecystokinin

Effects of glycated and non-glycated cholecystokinin-8 on appetite control in mice. **57**, 13A, 1998

Cholesterol

Effects of cholesterol oxidation products on DNA content and membrane bound enzyme activities in Chinese hamster ovary cells. **57**, 5A, 1998

Flavonoids: their protective role in cholestan-3β-5α-6β-triol induced toxicity *in vitro*. **57**, 5A, 1998

Effects of exercise training on total plasma cholesterol concentrations and rates of cholesterol synthesis. **57**, 14A, 1998

Induction of alkali labile lesions by oxidised derivatives of cholesterol in Chinese Hamster Ovary cells as measured by the Comet assay. **57**, 28A, 1998

Time course of the effects of fish oil feeding on blood cholesterol concentrations in the rat. **57**, 47A, 1998

Cirrhosis

An examination of the effect of dietary sodium restriction on energy and protein intake in the treatment of ascites in cirrhosis. **57**, 115A, 1998

Collagen

The effect of dietary calcium intake on pyridinium crosslinks of collagen in the rat. **57**, 29A, 1998

Comet assay
Comparison of Three Different Drying Temperatures for the Preservation of Single Cell Gel Electrophoresis (Comet) Assay Slides. **57**, 170A, 1998

Consumer
Determining consumers preferences using sensory evaluation. **57**, 22A, 1998

Consumers
Investigating consumer perceptions of the sensory characteristics of ten diverse cheese varieties. **57**, 169A, 1998

The effect of in-store music on consumer choice of wine. **57**, 169A, 1998

Copper
The effect of copper sulphate supplementation on fibrinolytic factors in healthy subjects. **57**, 2A, 1998

No effect of copper supplementation on mononuclear leukocyte DNA damage as assessed by the Comet assay: FOODCUE Project. **57**, 156A, 1998

The effect of dietary copper on bone metabolism in healthy adult males. **57**, 156A, 1998

Copper supplementation and LDL susceptibility to oxidation: FOODCUE Project. **57**, 157A, 1998

Creatine
The effect of acute dietary creatine supplementation upon indices of renal, hepatic and haematological function in human subjects. **57**, 17A, 1998

Effect of protein and/or carbohydrate ingestion on whole-body creatine retention during creatine supplementation in human subjects. **57**, 153A, 1998

Crypt cell proliferation
Is crypt cell proliferation a reliable bio-marker of intestinal cancer risk? **57**, 43A, 1998

Cystic fibrosis
Validation of the Ramsey formula for estimation of energy requirements in children and adolescents with cystic fibrosis. **57**, 132A, 1998

Cytokines
Relationship of serum levels of interleukin-6, soluble interleukin-6 receptor and tumour necrosis factor receptors to the acute phase protein response in advanced pancreatic cancer. **57**, 105A, 1998

Dental health
Evaluation of the dental health intervention programme, DEN TV. **57**, 168A, 1998

Diabetes mellitus
Gene–environment interactions in the pathogenesis of type 2 diabetes mellitus: lessons learned from the Pima Indians. **57**, 175, 1998

Reduced glycine flux with age and non-insulin-dependent diabetes mellitus (NIDDM) is associated with increased urinary excretion of 5-L-oxoproline. **57**, 52A, 1998

Diarrhoea
Nutrition interventions to reduce diarrhoea morbidity and mortality. **57**, 167, 1998

Does the presence of a nasogastric tube adversely affect distal colonic motor activity and contribute to the pathogenesis of enteral feeding-related diarrhoea? **57**, 102A, 1998

Dietary assessment
Diet diaries and difficulty with the "three R's" in a 43-year-old British birth cohort. **57**, 23A, 1998

Dietary fat
Effect of different dietary fat sources on immune function in healthy males and females. **57**, 27A, 1998

Dietary fibre
Differences between smokers and non-smokers in the intestinal absorption of carotenoids. **57**, 26A, 1998

Effect of dietary fibres on vitamin A, vitamin E and folate status in rats. **57**, 27A, 1998

Dietary fibre and the intestinal microflora, effects on intestinal morphometry and crypt branching. **57**, 45A, 1998

Dietary intake
Diet and cancer prevention: the Concerted Action Polyp Prevention (CAPP) Studies. **57**, 183, 1998

The role of nutrition and diet in rheumatoid arthritis. **57**, 231, 1998

Comparative diet and lifestyle study between Irish and West Virginian women. **57**, 22A, 1998

Association between present dietary intake and bone health in post-menopausal and elderly Scottish women. **57**, 37A, 1998

The alternative–dietary practice of a selected group of oncology patients receiving conventional medical treatment. **57**, 114A, 1998

A 10-year follow-up of dietary change in Scotland. **57**, 133A, 1998

Dietary intake of selenium in the UK. **57**, 162A, 1998

Patient satisfaction, nutrient content and actual intake of food served in two Dublin teaching hospitals. **57**, 166A, 1998

Dietary lipids
Post-translational events in the intracellular transit of apolipoprotein-B: modulation by dietary lipids. **57**, 293, 1998

Dietary modifications
The combined effect of exercise and dietary modification on the fitness level and body composition of cardiac rehabilitation patients. **57**, 29A, 1998

Dietary management in a work-site setting. **57**, 134A, 1998

Dietary surveys
Using electronic mail for monitoring compliance to Scottish dietary targets. **57**, 137A, 1998

Evaluation of the Scottish Health Survey Eating Habits Questionnaire to monitor Scottish Diet food targets. **57**, 136A, 1998

Dietary texture
Energy intakes fail to meet requirements on texture modified diets. **57**, 117A, 1998

Diurnal rhythm
Diurnal and diet-induced changes in skeletal muscle function in normal subjects. **57**, 7A, 1998

DNA
Induction of alkali labile lesions by oxidised derivatives of cholesterol in Chinese Hamster Ovary cells as measured by the Comet assay. **57**, 28A, 1998

Folic acid status and uracil misincorporation in human DNA. **57**, 35A, 1998

Dietary flavonoids and DNA damage in isolated human lymphocytes: genotoxicity and cytoprotection. **57**, 36A, 1998

No effect of copper supplementation on mononuclear leukocyte DNA damage as assessed by the Comet assay: FOODCUE Project. **57**, 156A, 1998

The effect of flavonoids on background and hydrogen peroxide-induced DNA damage. **57**, 162A, 1998

Comparison of Three Different Drying Temperatures for the Preservation of Single Cell Gel Electrophoresis (Comet) Assay Slides. **57**, 170A,1998

Eating behaviour

Evaluation of the Scottish Health Survey Eating Habits Questionnaire to monitor Scottish Diet food targets. **57**, 136A, 1998

Elderly

Protein–energy malnutrition in older subjects. **57**, 587, 1998

Malnutrition or healthy senescence. **57**, 593, 1998

Nutrition assessment methods for the older Irish adult in the clinical and community settings. **57**, 599, 1998

Carotenoids and immune response in elderly people. **57**, 4A, 1998

Nutrition, physical activity and immunocompetence in an aged Spanish group. **57**, 17A, 1998

A comparison of the daily water turnover rates in independent and dependent elderly. **57**, 32A, 1998

Plasma total homocysteine in 972 people aged 65 years and over, representative of Britain, in a National Diet and Nutrition Survey. **57**, 35A, 1998

An evaluation of protein energy supplementation in medically ill admissions to a geriatric unit. **57**, 88A, 1998

A recipe for improving the nutritional intake in elderly hospital patients. **57**, 89A, 1998

Improved nutritional awareness alone does not improve recording practices of weight and height by nurses working on acute medical and care of the elderly wards. **57**, 113A, 1998

Relationship between riboflavin status, methylenetetrahydrofolate reductase (MTHFR) genotype and plasma homocysteine in healthy elderly subjects. **57**, 146A, 1998

Electronic mail

Using electronic mail for monitoring compliance to Scottish dietary targets. **57**, 137A, 1998

Endurance

Dietary macro- and micronutrient requirements of endurance athletes. **57**, 1, 1998

The nutritional demands of very prolonged exercise in man. **57**, 55, 1998

Energy balance

Appetite, feeding behaviour and energy balance in human subjects. **57**, 341, 1998

Energy economy following liver transplantation. **57**, 88A, 1998

The influence of the acute – phase response on energy balance in advanced cancer patients. **57**, 103A, 1998

Energy expenditure

Daily energy expenditure in free-living children: comparison of Caltrac motion sensors with the doubly-labelled water method. **57**, 11A, 1998

Energy intake

Metabolic and performance-related responses during endurance exercise following high-fat and high-carbohydrate meals. **57**, 9A, 1998

Day-to-day and meal-to-meal variation in energy intake in children. **57**, 11A, 1998

Changes in measures of fatigue in normal subjects following meals with a high protein or fat content. **57**, 18A, 1998

The response of energy intake and macronutrient balance to manipulation of physical activity levels in lean men. **57**, 19A, 1998

Providing fortified meals and between-meal snacks significantly increases energy intake of hospital patients. **57**, 95A, 1998

Energy intakes fail to meet requirements on texture modified diets. **57**, 117A, 1998

Confirmation of reduced energy intake after consumption of yoghurt containing Olibra™. **57**, 152A, 1998

Effects of isoenergetic supplements of starch, sucrose, lactose and whey permeate on rumen metabolism and digestion. **57**, 154A, 1998

Energy metabolism

Use of endogenous carbohydrate and fat as fuels during exercise. **57**, 49, 1998

Effects of leptin on mitochondrial proton leak and uncoupling proteins: implications for mammalian energy metabolism. **57**, 455, 1998

Energy regulation

Leptin: energy regulation and beyond to a hormone with pan-physiological function. **57**, 409, 1998

Energy requirements

A comparison of estimated energy requirements with resting metabolic rate measured using indirect calorimetry in hospital patients. **57**, 111A, 1998

Energy supplementation

Effects of replacing starch with whey permeate, lactose and sucrose under steady-state conditions on rumen metabolism and digestion. **57**, 163A, 1998

Enteral nutrition

Nutrient deficiencies during home enteral feeding. **57**, 95A, 1998

The effect of early adequate enteral nutrition (EN) on clinical outcome in head injury. **57**, 104A, 1998

Bacterial contamination of feed during home enteral tube feeding. **57**, 109A, 1998

Circulating concentrations of vitamins D and C in a cross-sectional group of patients on long-term tube feeding at home or in residential care. **57**, 109A, 1998

Enteral feeding tolerance in critically ill paediatric patients given adult formula. **57**, 112A, 1998

Health-related quality of life after percutaneous endoscopic gastrostomy. **57**, 115A, 1998

A 1-year audit of home enteral feeding practice. **57**, 116A, 1998

Review of enteral and parenteral feeding practice between 1994 and 1996: maintaining positive change. **57**, 118A, 1998

Home enteral tube-feeding in the community: are disabled children's rights to support services being denied? **57**, 119A, 1998

Home enteral tube feeding: a retrospective review of discharges from a Dublin hospital over 6 years (1992–8). **57**, 145A, 1998

Environmental temperature

Exogenous carbohydrate oxidation from ingested drinks during prolonged exercise in a cold environment in man. **57**, 8A, 1998

The effects of sodium ingestion on heat acclimation responses. **57**, 31A, 1998

Erthrocytes

A method to measure haemoglobin turnover rate. **57**, 37A, 1998

Exercise

Dietary macro- and micronutrient requirements of endurance athletes. **57**, 1, 1998

Free radicals, exercise and antioxidant supplementation. **57**, 9, 1998

The sports drink as a functional food: formulations for successful performance. **57**, 15, 1998

Influence of diet on the metabolic responses to exercise. **57**, 25, 1998

Amino acid metabolism, branched-chain amino acid feeding and brain monoamine function. **57**, 35, 1998

Nutrition, exercise and the immune system. **57**, 43, 1998

Use of endogenous carbohydrate and fat as fuels during exercise. **57**, 49, 1998

The nutritional demands of very prolonged exercise in man. **57**, 55, 1998

Exercise and postprandial lipid metabolism. **57**, 63, 1998

Effect of high-fat diets on exercise performance. **57**, 73, 1998

The relationship between physical activity and food intake. **57**, 77, 1998

Exercise and obesity. **57**, 85, 1998

Exercise prescription for weight management. **57**, 93, 1998

Effects of caffeine on performance, metabolism and reaction times during endurance exercise in man. **57**, 6A, 1998

The effects of altered fat and carbohydrate availability on some peripheral indices of central fatigue during cycling exercise in trained humans. **57**, 6A, 1998

The effect of prolonged exercise on protein metabolism in top triatheletes during carbohydrate ingestion. **57**, 7A, 1998

Muscle glycogen utilization during mild and severe exercise, hyperglycaemic with and without insulin. **57**, 8A, 1998

Exogenous carbohydrate oxidation from ingested drinks during prolonged exercise in a cold environment in man. **57**, 8A, 1998

Metabolic and performance-related responses during endurance exercise following high-fat and high-carbohydrate meals. **57**, 9A, 1998

Influence of carbohydrate-electrolyte beverage feedings during recovery, on subsequent utilisation during exercise: the use of naturally enriched [^{13}C] glucose. **57**, 9A, 1998

Effects of exercise training on total plasma cholesterol concentrations and rates of cholesterol synthesis. **57**, 14A, 1998

The decrease in postprandial lipaemia evident after a bout of exercise is independent of substrate utilization during the exercise. **57**, 14A, 1998

Effect of a pre-exercise bar rich in β-glucan on gastrointestinal transit time and blood glucose. **57**, 15A, 1998

Urinary caffeine concentration after coffee consumption and heat dehydration. **57**, 18A, 1998

The effect of exercise on subsequent feeding behaviour. **57**, 19A, 1998

Comparison of the short-term effects of exercise on food hedonics and food consumption in dietary restrained and unrestrained females. **57**, 20A, 1998

Food choice at a buffet meal 1 h after physical exercise. **57**, 20A, 1998

The combined effect of exercise and dietary modification on the fitness level and body composition of cardiac rehabilitation patients. **57**, 29A, 1998

Farm animals

Measuring food intake in farm and laboratory animals. **57**, 313, 1998

Fat composition

Influence of dietary fat composition on postprandial plasma bile acid and cholecystokinin concentrations in premenopausal women. **57**, 121A, 1998

Fat intake

Effect of high-fat diets on exercise performance. **57**, 73, 1998

Changes in plasma lipid profiles in response to the fat content of an evening meal persist during the following day. **57**, 12A, 1998

Gastrointestinal transit in rats adapted to a high-fat diet. **57**, 24A, 1998

Glucose tolerance is affected by previous consumption of a high-fat meal. **57**, 38A, 1998

Gastrointestinal transit adaptation to force-feeding high-fat meals in adult rats. **57**, 38A, 1998

Reproducibility of lipaemic, insulinaemic and glycaemic responses to a high-fat, mixed meal. **57**, 122A, 1998

Leptin insensitivity in C57BL/6J mice fed on high-fat diets of differing composition. **57**, 126A, 1998

Functional phenotypes: increased leptin and BMR as adaptive responses to a habitual high-fat (high energy) diet. **57**, 127A, 1998

The influence of information and extended sensory exposure on acceptance of reduced-fat products. **57**, 130A, 1998

The fat content of yoghurts determines the release of flavour volatiles during eating. **57**, 135A, 1998

Effect of advice to simultaneously reduce both dietary fat and sugar, or advice to reduce dietary fat alone on body-weight status: results from a 6-month intervention study. **57**, 136A, 1998

The effect of a fat rich test meal on cholesteryl ester transfer protein mass and activity in normolipidaemic individuals during postprandial lipaemia. **57**, 152A, 1998

A comparison of expectations about high- and low-fat breakfasts. **57**, 167A, 1998

Fatigue

The effects of altered fat and carbohydrate availability on some peripheral indices of central fatigue during cycling exercise in trained humans. **57**, 6A, 1998

Changes in measures of fatigue in normal subjects following meals with a high protein or fat content. **57**, 18A, 1998

Fatty acids

Modulation of immune function by dietary fatty acids. **57**, 277, 1998

Dietary fatty acids and lymphocyte functions. **57**, 487, 1998

The effects of dietary lipids on gene expression and apoptosis. **57**, 543, 1998

The anti-cachectic effect of fatty acids. **57**, 571, 1998

Effects of oleic acid, eicosapentaenoic acid and docosahexaenoic acid on genotoxin-induced frequencies of sister chromatid exchanges (SCE) in Indian Muntjac fibroblasts. **57**, 160A, 1998

Feed formulation

A spreadsheet programming model for linear and stochastic feed formulation problems. **57**, 163A, 1998

Fibrinolysis

The effect of copper sulphate supplementation on fibrinolytic factors in healthy subjects. **57**, 2A, 1998

Fish oil

Use of fish oil to prevent graft rejection. **57**, 577, 1998

Fish oil supplementation does not affect plasma antioxidant status. **57**, 42A, 1998

Time course of the effects of fish oil feeding on blood cholesterol concentrations in the rat. **57**, 47A, 1998

Effects of two types of dietary fish oil on blood lipid levels and lymphocyte proliferation in the rat. **57**, 49A, 1998

Dietary fish oil decreases the production of pro-inflammatory mediators by murine macrophages. **57**, 50A, 1998

The effect of fish oil supplementation on fasting and post-prandial lipid levels in individuals with an atherogenic lipoprotein phenotype (ALP). **57**, 122A, 1998

Bioavailability of *n*-3 polyunsaturated fatty acids (*n*-3 PUFA) in microencapsulated fish oil. **57**, 149A, 1998

Flavonoids

Flavonoids: their protective role in cholestan-3β-5α-6β-triol induced toxicity *in vitro*. **57**, 5A, 1998

Dietary flavonoids and DNA damage in isolated human lymphocytes: genotoxicity and cytoprotection. **57**, 36A, 1998

Absorption of flavonol conjugates in ileostomy subjects. **57**, 161A, 1998

The effect of flavonoids on background and hydrogen peroxide-induced DNA damage. **57**, 162A, 1998

Flavour

Taste and flavour perception. **57**, 603, 1998

The fat content of yoghurts determines the release of flavour volatiles during eating. **57**, 135A, 1998

Fluoride

Fluoride intake in 4-year-old Iranian children. **57**, 51A, 1998

Folic acid

Folic acid status and uracil misincorporation in human DNA. **57**, 35A, 1998

Factors affecting the erythrocyte folate status of Irish female adolescents. **57**, 147A, 1998

Impact of methylenetetrahydrofolate reductase (MTHFR) genotype and folate status on plasma homocysteine levels in healthy male and female adults. **57**, 147A, 1998

Food availability

Use of the Irish household budget survey for food availability estimation. **57**, 24A, 1998

Food choice

Taste and flavour: their importance in food choice and acceptance. **57**, 639, 1998

Food choice at a buffet meal 1 h after physical exercise. **57**, 20A, 1998

Food intake

The relationship between physical activity and food intake. **57**, 77, 1998

The effect of exercise on subsequent feeding behaviour. **57**, 19A, 1998

Comparison of the short-term effects of exercise on food hedonics and food consumption in dietary restrained and unrestrained females. **57**, 20A, 1998

Diet and food intake of sled dogs during a multi-stage race. **57**, 21A, 1998

Consumption of yoghurt containing modified fat increases satiety and reduces subsequent food intake. **57**, 121A, 1998

Food labelling

Use and knowledge of food labels of shoppers in Glasgow. **57**, 138A, 1998

Food-frequency questionnaire

A 10-year follow-up of dietary change in Scotland. **57**, 133A, 1998

Free-living conditions

Measuring intake in free-living human subjects: a question of bias. **57**, 333, 1998

Fruit consumption

Is dietary consumption of fruit and vegetables reflected in the plasma carotenoid profiles of older people? **57**, 3A, 1998

Functional foods

The sports drink as a functional food: formulations for successful performance. **57**, 15, 1998

Gastroenterologists

The role of British gastroenterologists in the provision of artificial nutrition support. **57**, 110A, 1998

Gene expression
Molecular biological approaches to nutrient–gene interactions. **57**, 249, 1998
Response of placental amino acid transport to gestational age and intrauterine growth retardation. **57**, 257, 1998
Regulation of liver gene expression by glucose. **57**, 265, 1998
Modulation of immune function by dietary fatty acids. **57**, 277, 1998
Post-translational events in the intracellular transit of apolipoprotein-B: modulation by dietary lipids. **57**, 293, 1998
Antioxidant micronutrients and gene expression. **57**, 301, 1998
A role of zinc in the regulation of gene expression. **57**, 307, 1998

Gene mutation
ob gene mutations and human obesity. **57**, 471, 1998

Gene–environment interaction
Gene–environment interactions in the pathogenesis of type 2 diabetes mellitus: lessons learned from the Pima Indians. **57**, 175, 1998

General practice
Obesity management in general practice: a pilot qualitative study of attitudes of general practitioners and practice nurses in Glasgow. **57**, 165A, 1998
Obesity and weight management training needs of general practitioners and practice nurses. **57**, 166A, 1998

β-Glucan
Effect of a pre-exercise bar rich in β-glucan on gastrointestinal transit time and blood glucose. **57**, 15A, 1998

Glucocorticoids
Glucocorticoids and the preparation for life after birth: are there long-term consequences of the life insurance. **57**, 113, 1998
The effect of prenatal diet and glucocorticoids on growth and systolic blood pressure in the rat. **57**, 235, 1998

Glucose
Glucose tolerance is affected by previous consumption of a high-fat meal. **57**, 38A, 1998

Glutamine
Glutamine utilization and oxidation by the rat oesophagus and duodenum. **57**, 99A, 1998
Safety of glutamine administration to Gambian infants. **57**, 106A, 1998

Glutathione peroxidase
Use of glutathione peroxidase-1 (GPX1) activity and mRNA levels and other selenium-dependent parameters to assess selenium requirements in female rats throughout the life-cycle. **57**, 155A, 1998

Glutathione reductase
Response of erythrocyte glutathione reductase activation coefficient (EGRAC) and plasma pyridoxal-5′ phosphate (PLP) to riboflavin supplementation (a pilot study). **57**, 146A, 1998

Glycerol-3-phosphate dehydrogenase
An *in vitro* study of glycerol-3-phosphate dehydrogenase (*E.C.* 1.1.1.8; GPDH) activity as a marker of triacylglycerol synthesis in ovine adipocytes taken from animals at different stages of development. **57**, 41A, 1998

Growth factors
Growth factors and gut function. **57**, 403, 1998

Gut barrier function
Nutritional implications of gut overgrowth and selective decontamination of the digestive tract. **57**, 381, 1998
Bacterial translocation during enteral and parenteral nutrition. **57**, 389, 1998
Nutritional modulation of gut inflammation. **57**, 395, 1998
Growth factors and gut function. **57**, 403, 1998

Gut integrity
Comparison of gut integrity of hospitalized Indian infants admitted with gastrointestinal and respiratory infections. **57**, 171A, 1998

Haemoglobin
A method to measure haemoglobin turnover rate. **57**, 37A, 1998

Hair
Nutritional and hormonal regulation of hair follicle growth and development. **57**, 195, 1998

Head injury
The effect of early adequate enteral nutrition (EN) on clinical outcome in head injury. **57**, 104A, 1998

Health education
Process evaluation of a health promotion educational resource material for children: Galway Health Project. **57**, 23A, 1998

Healthy eating
Perceived barriers to healthy eating among nationally-representative samples of European adults. **57**, 10A, 1998

Height
Errors in self-reported height and weight. **57**, 135A, 1998

HIV infection
Metabolic abnormalities and wasting in human immunodeficiency virus infection. **57**, 373, 1998
Nutritional status and growth in children with human immunodeficiency virus-1 infection in Romania. **57**, 138A, 1998

Homocysteine
Carotid atheromatous plaques, intimal-medical thicknesses and plasma homocysteine levels in asymptomatic postmenopausal women. **57**, 25A, 1998
Plasma homocysteine shows no response to altered dietary methionine intake. **57**, 25A, 1998
Plasma total homocysteine in 972 people aged 65 years and over, representative of Britain, in a National Diet and Nutrition Survey. **57**, 35A, 1998

Hospital patients
Prevalence of undernutrition and weight loss changes during the course of hospitalization among patients admitted to two Dublin hospitals. **57**, 10A, 1998
A recipe for improving the nutritional intake in elderly hospital patients. **57**, 89A, 1998
Patients' nutritional status influences their use of health care resources. **57**, 90A, 1998
An audit of nutrition risk assessment on admission to a teaching hospital. **57**, 90A, 1998
Referrals to the nutritional support team (NST). Effective use of resources? **57**, 91A, 1998

Compliance of orthopaedic patients with post-operative nutritional supplementation. **57**, 91A, 1998

Nutritional supplementation: How much do people drink? **57**, 94A, 1998

Providing fortified meals and between-meal snacks significantly increases energy intake of hospital patients. **57**, 95A, 1998

The implementation of guidelines: another drain on the NHS purse? **57**, 107A, 1998

A comparison of estimated energy requirements with resting metabolic rate measured using indirect calorimetry in hospital patients. **57**, 111A, 1998

Survey of the use of supplements (sip feeds) in hospitals in the south of England. **57**, 117A, 1998

Assessment of energy content of menus, energy intakes and wastage of food in two Irish teaching hospitals. **57**, 144A, 1998

Nutritional characteristics of Irish patients undergoing resection of major carcinoma. **57**, 145A, 1998

Patient satisfaction, nutrient content and actual intake of food served in two Dublin teaching hospitals. **57**, 166A, 1998

Household budget

Use of the Irish household budget survey for food availability estimation. **57**, 24A, 1998

Ileostomy

Absorption of flavonol conjugates in ileostomy subjects. **57**, 161A, 1998

Immune function

Nutrition, exercise and the immune system. **57**, 43, 1998

Nutrition, immunity and the fetal and infant origins of disease hypothesis in developing countries. **57**, 241, 1998

Dietary fatty acids and lymphocyte functions. **57**, 487, 1998

n-3 Polyunsaturated fatty acids and immune function. **57**, 503, 1998

Monounsaturated fats and immune function. **57**, 511, 1998

In vitro and *in vivo* effects of *n*-3 polyunsaturated fatty acids on human monocyte function. **57**, 521, 1998

The effects of dietary *n*-3 polyunsaturated fatty acids on neutrophils. **57**, 527, 1998

Dietary lipids and the inflammatory response. **57**, 535, 1998

The effects of dietary lipids on gene expression and apoptosis. **57**, 543, 1998

Phospholipase A_2 (*EC* 3.1.1.4) and D (*EC* 3.1.4.4) signalling in lymphocytes. **57**, 551, 1998

Dietary *n*-6 and *n*-3 fatty acids in immunity and autoimmune disease. **57**, 555, 1998

n-6 and *n*-3 Essential fatty acids in rheumatoid arthritis and other rheumatic conditions. **57**, 563, 1998

The anti-cachectic effect of fatty acids. **57**, 571, 1998

Use of fish oil to prevent graft rejection. **57**, 577, 1998

Carotenoids and immune response in elderly people. **57**, 4A, 1998

Nutrition, physical activity and immunocompetence in an aged Spanish group. **57**, 17A, 1998

Effect of different dietary fat sources on immune function in healthy males and females. **57**, 27A, 1998

Effect of lactose induced diarrhoea on macronutrients digestibility and immune function in well-nourished and undernourished rats. **57**, 49A, 1998

Taurine modulates immune response, and reduces bacterial translocation and gut atrophy in a murine model of sepsis. **57**, 143A, 1998

Immunoglobulins

Calf serum immunoglobulin estimations requiring minimal laboratory facilities and skills. **57**, 140A, 1998

Income

Nutrient intake, income and dietary variety in adults. **57**, 167A, 1998

Infants

Safety of glutamine administration to Gambian infants. **57**, 106A, 1998

The role of the dietitian in optimizing nutrition support for the infant. **57**, 119A, 1998

Comparison of gut integrity of hospitalized Indian infants admitted with gastrointestinal and respiratory infections. **57**, 171A, 1998

Inflammatory response

Nutritional modulation of gut inflammation. **57**, 395, 1998

Dietary lipids and the inflammatory response. **57**, 535, 1998

Insulin

Influence of increased long-chain *n*-3 polyunsaturated fatty acid (PUFA) intakes on the insulin sensitivity of glucose disposal in middle-aged men. **57**, 39A, 1998

Intestinal failure

One thousand weeks of home parenteral nutrition at a district general hospital. **57**, 93A, 1998

Intestine

Nutrient regulation of intestinal proliferation and apoptosis. **57**, 219, 1998

Expression of the amino acid transporter GLYT1 in human small bowel and the intestinal epithelial cell line Caco-2. **57**, 44A, 1998

The positive feedback effect of the dipeptide GlyGln on its own absorption in the gastrointestinal tract by the carrier protein hPepT1. **57**, 44A, 1998

Dietary fibre and the intestinal microflora, effects on intestinal morphometry and crypt branching. **57**, 45A, 1998

Keratinocyte growth factor (KGF) and gut growth, cytoprotection cell migration. **57**, 46A, 1998

Iron

Iron status and habitual physical activity in UK adolescent girls. **57**, 15A, 1998

Iron status in a group of sportsmen and women belonging to the National Institute of Physical Education (Spain). **57**, 16A, 1998

Features of the iron binding antioxidant potential of preterm baby plasma. **57**, 36A, 1998

Iron intake and iron status in young children in Edinburgh. **57**, 134A, 1998

Isoflavones
The effects of soyabean isoflavones on plasma HDL concentrations in healthy male and female subjects. **57**, 123A, 1998
The influence of dietary isoflavones on markers of lipid peroxidation in healthy male and female volunteers. **57**, 123A, 1998
Inter-individual variation in soyabean isoflavone metabolism: the role of habitual diet. **57**, 161A, 1998

Keratinocyte growth factor
Keratinocyte growth factor (KGF) and gut growth, cytoprotection cell migration. **57**, 46A, 1998

Kidney
Increased renal arginine turnover after lipopolysaccharide (LPS) treatment in the rat. **57**, 99A, 1998

Laboratory studies
Methodological issues relating to the measurement of food, energy and nutrient intake in human laboratory-based studies. **57**, 357, 1998

Lactose
Effect of lactose induced diarrhoea on macronutrients digestibility and immune function in well-nourished and undernourished rats. **57**, 49A, 1998

Leptin
Leptin: energy regulation and beyond to a hormone with pan-physiological function. **57**, 409, 1998
Regulation of leptin production: a dominant role for the sympathetic nervous system? **57**, 413, 1998
Leptin and reproduction. **57**, 421, 1998
Overview: neurobiology of OB protein (leptin). **57**, 429, 1998
Localization of leptin receptor splice variants in mouse peripheral tissues by immunohistochemistry. **57**, 441, 1998
Peripheral metabolic actions of leptin. **57**, 449, 1998
Effects of leptin on mitochondrial proton leak and uncoupling proteins: implications for mammalian energy metabolism. **57**, 455, 1998
Leptin production in human adipose tissue. **57**, 461, 1998
ob gene mutations and human obesity. **57**, 471, 1998
Human and clinical perspectives on leptin. **57**, 477, 1998
The administration of a β_3-adrenergic agonist decreases leptin expression in a diet-induced obesity model. **57**, 13A, 1998
Plasma leptin, insulin resistance, lipids and body fat distribution in lean and obese healthy and Prader-Willi syndrome subjects. **57**, 100A, 1998
Increased circulating leptin levels after muscle gene transfer in normal mice. **57**, 126A, 1998
Leptin insensitivity in C57BL/6J mice fed on high-fat diets of differing composition. **57**, 126A, 1998
Functional phenotypes: increased leptin and BMR as adaptive responses to a habitual high-fat (high energy) diet. **57**, 127A, 1998
Studies on the leptin system in adult human subjects from an Aberdeen population. **57**, 127A, 1998

Lifestyle
Comparative diet and lifestyle study between Irish and West Virginian women. **57**, 22A, 1998
A comparison of the dietary and lifestyle habits and nutritional knowledge of cardiology and non-cardiology hospital staff. **57**, 142A, 1998

γ-Linolenic acid
γ-Linolenic acid inhibits the expression of the major histocompatibility complex (MHC) class II molecule, HLA-DR, on human monocytes *in vitro*. **57**, 50A, 1998

Lipid emulsions
Confirmation of reduced energy intake after consumption of yoghurt containing Olibra™. **57**, 152A, 1998

Lipid metabolism
Effect of genetic variation of apolipoprotein B (apoB) on postprandial lipidaemia. **57**, 150A, 1998
Postprandial lipaemia in response to sucrose intake in middle-aged men with CHD risk factors and matched controls. **57**, 151A, 1998
The postprandial cholesterol response is associated with fasting plasma triacylglycerol concentrations. **57**, 151A, 1998
The effect of a fat rich test meal on cholesteryl ester transfer protein mass and activity in normolipidaemic individuals during postprandial lipaemia. **57**, 152A, 1998

Lipid peroxidation
The influence of dietary isoflavones on markers of lipid peroxidation in healthy male and female volunteers. **57**, 123A, 1998

Lipids
Use of specific lipid formulation in food preparations can regulate appetite. **57**, 101A, 1998

Lipoprotein lipase
A comparison of lipoprotein lipase activity and gene expression in human and rat adipose tissue. **57**, 39A, 1998

Lipoproteins
Separation of human plasma lipoprotein subclasses. **57**, 46A, 1998
The effects of two commercially available spreads on plasma lipoproteins in human subjects. **57**, 48A, 1998
The effects of soyabean isoflavones on plasma HDL concentrations in healthy male and female subjects. **57**, 123A, 1998
Copper supplementation and LDL susceptibility to oxidation: FOODCUE Project. **57**, 157A, 1998

Liver
Regulation of liver gene expression by glucose. **57**, 265, 1998
Energy economy following liver transplantation. **57**, 88A, 1998
Changes in body composition following liver transplantation. **57**, 101A, 1998

Lycopene
The effect of amount and composition of added oil on the ability to trap the geometric isomers of lycopene from tomato juice after boiling. **57**, 159A, 1998

Lymphocytes
Effects of two types of dietary fish oil on blood lipid levels and lymphocyte proliferation in the rat. **57**, 49A, 1998

The effect of ascorbic acid supplementation on H_2O_2-mediated nuclear factor kB (NFkB) activation in human lymphocytes. **57**, 159A, 1998

Macronutrients
Effect of protein and/or carbohydrate ingestion on whole-body creatine retention during creatine supplementation in human subjects. **57**, 153A, 1998

Macronutrient intake in normal-weight children at high and low risk of obesity. **57**, 164A, 1998

Macrophages
Dietary fish oil decreases the production of pro-inflammatory mediators by murine macrophages. **57**, 50A, 1998

Magnesium
The effect of suboptimal and deficient dietary magnesium intakes on bone composition and bone metabolism in the rat. **57**, 155A, 1998

Malnutrition
Malnutrition or healthy senescence. **57**, 593, 1998

Manganese
Manganese intake and parenteral-nutrition-associated cholestasis in the preterm infant. **57**, 89A, 1998

Manganese requirement and intoxication in patients on home parenteral nutrition. **57**, 104A, 1998

Maternal nutrition
Maternal nutrition, placental growth and fetal programming. **57**, 105, 1998

Glucocorticoids and the preparation for life after birth: are there long-term consequences of the life insurance. **57**, 113, 1998

Fetal origins of cardiovascular risk: evidence from studies in children. **57**, 123, 1998

Reproductive outcomes in women prenatally exposed to undernutrition: a review of findings from the Dutch famine birth cohort. **57**, 129, 1998

The effect of prenatal diet and glucocorticoids on growth and systolic blood pressure in the rat. **57**, 235, 1998

Nutrition, immunity and the fetal and infant origins of disease hypothesis in developing countries. **57**, 241, 1998

Impact of maternal nutrient restriction in early to mid gestation on lamb size and insulin-like growth factor-1 (IGF-1) status at term. **57**, 124A, 1998

Membrane biochemistry
Effects of cholesterol oxidation products on DNA content and membrane bound enzyme activities in Chinese hamster ovary cells. **57**, 5A, 1998

Metabolism
Influence of diet on the metabolic responses to exercise. **57**, 25, 1998

Some aspects of the metabolic response to surgical trauma. **57**, 225, 1998

Acute metabolic effects of freshly cooked *v.* cooked and chilled potatoes. **57**, 47A, 1998

Metallothionein
Obesity and hyperleptinaemia in metallothionein-null mice. **57**, 125A, 1998

Methionine
Plasma homocysteine shows no response to altered dietary methionine intake. **57**, 25A, 1998

5,10-Methylenetetrahydrofolate reductase
The thermolabile 5, 10-methylenetetrahydrofolate reductase (MTHFR) gene, mild hyperhomocysteinaemia and B-group vitamins. **57**, 26A, 1998

Micro-organisms
Nutritional implications of gut overgrowth and selective decontamination of the digestive tract. **57**, 381, 1998

Micronutrients
Combating micronutrient deficiencies: problems and perspectives. **57**, 137, 1998

Some micronutrient intakes of Scottish schoolchildren aged 5½ to 8½ years compared with intakes at age 1½ to 4½ years. **57**, 137A, 1998

Mineral intake
Intake of selected nutrients from vitamin and mineral supplements by subjects in the EPIC Study, Norfolk, UK. **57**, 154A, 1998

Monocytes
γ-Linolenic acid inhibits the expression of the major histocompatibility compiex (MHC) class II molecule, HLA-DR, on human monocytes *in vitro*. **57**, 50A, 1998

Monounsaturated fatty acids
Monounsaturated fats and immune function. **57**, 511, 1998

Multiple intestinal neoplasia
APC gene controls crypt fission and not cell division in mice with multiple intestinal neoplasia (MIN). **57**, 45A, 1998

Multiple organ failure
Muscle glycogen and electrolyte concentrations in multiple organ failure. **57**, 111A, 1998

Muscle
Nutritional and hormonal control of skeletal-muscle cell growth and differentiation. **57**, 207, 1998

Diurnal and diet-induced changes in skeletal muscle function in normal subjects. **57**, 7A, 1998

Muscle glycogen utilization during mild and severe exercise, hyperglycaemic with and without insulin. **57**, 8A, 1998

Non-invasive measurement of intracellular skeletal muscle triacylglycerol. **57**, 103A, 1998

Muscle glycogen and electrolyte concentrations in multiple organ failure. **57**, 111A, 1998

Increased circulating leptin levels after muscle gene transfer in normal mice. **57**, 126A, 1998

N-acetylcysteine
The stability and cytoprotective effects of N-acetylcysteine in cervical cancer patients undergoing radiotherapy. **57**, 107A, 1998

Nasogastric feeding
Preliminary report of the efficacy of nasogastric feeding in allogeneic adult bone marrow transplant patients. **57**, 92A, 1998

Does the presence of a nasogastric tube adversely affect distal colonic motor activity and contribute to the pathogenesis of enteral feeding-related diarrhoea? **57**, 102A, 1998

Effect of nasogastric tube feeding regimens on voluntary food intake and hunger in healthy volunteers. **57**, 108A, 1998

Neonatal nutrition
Development of food acceptance patterns in the first years of life. **57**, 617, 1998

Neopterin
Urinary neopterin as a marker of infection and the lack of influence of vitamin A supplementation in infants. **57**, 157A, 1998

Neurobiology
Overview: neurobiology of OB protein (leptin). **57**, 429, 1998

Non-esterified fatty acids
Baseline variability of non-esterified fatty acids (NEFA). **57**, 12A, 1998

Nutrient intake
Measuring food intake in farm and laboratory animals. **57**, 313, 1998

Measuring food intake in wild animals: primates. **57**, 321, 1998

Measuring intake in free-living human subjects: a question of bias. **57**, 333, 1998

Methodological issues relating to the measurement of food, energy and nutrient intake in human laboratory-based studies. **57**, 357, 1998

The influence of place of residence on the intake of energy and nutrients in a group of Spanish soccer players of lower division teams. **57**, 21A, 1998

Nutrient deficiencies during home enteral feeding. **57**, 95A, 1998

Impact of maternal nutrient restriction in early to mid gestation on lamb size and insulin-like growth factor-1 (IGF-1) status at term. **57**, 124A, 1998

Nutrient intakes of female adolescents attending a single-sex compared with a mixed secondary school. **57**, 142A, 1998

Nutrient intake, income and dietary variety in adults. **57**, 167A, 1998

Nutrient–gene interactions
Molecular biological approaches to nutrient–gene interactions. **57**, 249, 1998

Nutrition education
Use and knowledge of food labels of shoppers in Glasgow. **57**, 138A, 1998

Nutrition intervention
Combating micronutrient deficiencies: problems and perspectives. **57**, 137, 1998

The anthropometric status of schoolchildren in five countries in the Partnership for Child Development. **57**, 149, 1998

Vitamin A and public health: challenges for the next decade. **57**, 159, 1998

Nutrition interventions to reduce diarrhoea morbidity and mortality. **57**, 167, 1998

Nutrition Society Medal Lecture
Appetite, feeding behaviour and energy balance in human subjects. **57**, 341, 1998

Nutritional knowledge
Nutritional knowledge and request for parenteral nutrition in a tertiary referral paediatric hospital. **57**, 108A, 1998

Improved nutritional awareness alone does not improve recording practices of weight and height by nurses working on acute medical and care of the elderly wards. **57**, 113A, 1998

A comparison of the dietary and lifestyle habits and nutritional knowledge of cardiology and non-cardiology hospital staff. **57**, 142A, 1998

Nutritional screening
Nutrition assessment methods for the older Irish adult in the clinical and community settings. **57**, 599, 1998

Refeeding syndrome: the need for practical guidelines. **57**, 114A, 1998

A team approach to the audit of nutritional care of oncology patients. **57**, 116A, 1998

A 1-year audit of home enteral feeding practice. **57**, 116A, 1998

Nutritional status
An audit of nutrition risk assessment on admission to a teaching hospital. **57**, 90A, 1998

Patients' nutritional status influences their use of health care resources. **57**, 90A, 1998

Use of immediate post-operative tunnelled jejunal feeding and subsequent nutritional status in patients undergoing oesophago gastrectomy (Oes). **57**, 92A, 1998

Nutritional status and growth in children with human immunodeficiency virus-1 infection in Romania. **57**, 138A, 1998

Nutritional characteristics of Irish patients undergoing resection of major carcinoma. **57**, 145A, 1998

Can patients' knowledge of their own weight and height be used to replace measured weight and height in the calculation of BMI? **57**, 165A, 1998

Nutritional supplements
Nutritional supplementation: How much do people drink? **57**, 94A, 1998

Survey of the use of supplements (sip feeds) in hospitals in the south of England. **57**, 117A, 1998

Nutritional support
Referrals to the nutritional support team (NST). Effective use of resources? **57**, 91A, 1998

Compliance of orthopaedic patients with post-operative nutritional supplementation. **57**, 91A, 1998

The implementation of guidelines: another drain on the NHS purse? **57**, 107A, 1998

The role of British gastroenterologists in the provision of artificial nutrition support. **57**, 110A, 1998

The role of the dietitian in optimizing nutrition support for the infant. **57**, 119A, 1998

Home enteral tube feeding: a retrospective review of discharges from a Dublin hospital over 6 years (1992–8). **57**, 145A, 1998

Obesity
Exercise and obesity. **57**, 85, 1998

The administration of a β_3-adrenergic agonist decreases leptin expression in a diet-induced obesity model. **57**, 13A, 1998

Obesity and hyperleptinaemia in metallothionein-null mice. **57**, 125A, 1998

Obesity management in general practice: a pilot qualitative study of attitudes of general practitioners and practice nurses in Glasgow. **57**, 165A, 1998

Obesity and weight management training needs of general practitioners and practice nurses. **57**, 166A, 1998

Occlusion
Occluding material present in central venous and haemodialysis catheters. **57**, 96A, 1998

Oesophago-gastrectomy
Use of immediate post-operative tunnelled jejunal feeding and subsequent nutritional status in patients undergoing oesophago gastrectomy (Oes). **57**, 92A, 1998

Oral rehydration
Net and unidirectional water fluxes from four oral rehydration solutions perfused into the intact human jejunum. **57**, 31A, 1998

The effect of drink composition on deuterium accumulation in men with spinal cord lesion. **57**, 32A, 1998

Osteocalcin
Vitamin D receptor gene polymorphisms and circulating osteocalcin in healthy young Irish women. **57**, 158A, 1998

Osteoporosis
Genetics, calcium intake and osteoporosis. **57**, 187, 1998

5-L-Oxoproline
Reduced glycine flux with age and non-insulin-dependent diabetes mellitus (NIDDM) is associated with increased urinary excretion of 5-L-oxoproline. **57**, 52A, 1998

Palm oil
Increased cooking stability of all-*trans*-β-carotene in red palm oil using *Murraya koenigii* or *Cnidoscolus aconitifolius* leaves. **57**, 34A, 1998

Pancreas
Changes in weight, albumin and C-reactive protein in advanced pancreatic cancer. **57**, 102A, 1998

Parenteral nutrition
Manganese intake and parenteral-nutrition-associated cholestasis in the preterm infant. **57**, 89A, 1998

Preliminary report of the efficacy of nasogastric feeding in allogeneic adult bone marrow transplant patients. **57**, 92A, 1998

One thousand weeks of home parenteral nutrition at a district general hospital. **57**, 93A, 1998

Appetite and food intake during Artificial Nutrition. **57**, 96A, 1998

Investigation of particulate contamination in total parenteral nutrition admixtures in a clinical setting. **57**, 97A, 1998

Adult parenteral nutrition: does one size fit all? **57**, 98A, 1998

Should all-in-one parenteral nutrition mixtures be pre-incubated before testing for sterility? **57**, 98A, 1998

Manganese requirement and intoxication in patients on home parenteral nutritcn. **57**, 104A, 1998

Nutritional knowledge and request for parenteral nutrition in a tertiary referral paediatric hospital. **57**, 108A, 1998

Home parenteral nutrition:- review of protocols to prevent catheter occlusion. **57**, 113A, 1998

Review of enteral and parenteral feeding practice between 1994 and 1996: maintaining positive change. **57**, 118A, 1998

Standard renal parenteral nutrition does meet our patients' nutritional requirement. **57**, 118A, 1998

Particulate contamination
Investigation of particulate contamination in total parenteral nutrition admixtures in a clinical setting. **57**, 97A, 1998

Peptides
Amino acid and peptide absorption across the ovine gastrointestinal tract: a dietary comparison. **57**, 42A, 1998

The positive feedback effect of the dipeptide GlyGln on its own absorption in the gastrointestinal tract by the carrier protein hPepT1. **57**, 44A, 1998

Percutaneous endoscopic gastrostomy
Percutaneous endoscopic gastrostomy (PEG) feeding: too little too late? **57**, 93A, 1998

Pilot study of a percutaneous endoscopic gastrostomy clinic for stroke patients. **57**, 94A, 1998

Health-related quality of life after percutaneous endoscopic gastrostomy. **57**, 115A, 1998

Peripheral tissues
Localization of leptin receptor splice variants in mouse peripheral tissues by immunohistochemistry. **57**, 441, 1998

Peripheral metabolic actions of leptin. **57**, 449, 1998

Phloridzin
Natural derivatives of phloridzin show potent antioxidant activity in human low density lipoproteins. **57**, 139A, 1998

Phospholipases
Phospholipase A_2 (*EC* 3.1.1.4) and D (*EC* 3.1.4.4) signalling in lymphocytes. **57**, 551, 1998

Phylloquinone
The relationship between plasma and dietary phylloquinone (vitamin K_1) in Scottish adults. **57**, 148A, 1998

Physical activity
The response of energy intake and macronutrient balance to manipulation of physical activity levels in lean men. **57**, 19A, 1998

Relationships between physical activity, disease activity and quality of life in inoperable lung cancer. **57**, 106A, 1998

Phytochemicals
The effect of the citrus phytochemicals limonin and nomilin on xenobiotic metabolizing enzyme activity in the rat liver and lung. **57**, 160A, 1998

Place of residence
The influence of place of residence on the intake of energy and nutrients in a group of Spanish soccer players of lower division teams. **57**, 21A, 1998

Placenta
Maternal nutrition, placental growth and fetal programming. **57**, 105, 1998

Response of placental amino acid transport to gestational age and intrauterine growth retardation. **57**, 257, 1998

Plasma
Quercetin levels in plasma and resistance of plasma to oxidation after fried onion breakfast. **57**, 4A, 1998

Changes in plasma lipid profiles in response to the fat content of an evening meal persist during the following day. **57**, 12A, 1998

Baseline variability of non-esterified fatty acids (NEFA). **57**, 12A, 1998

Separation of human plasma lipoprotein subclasses. **57**, 46A, 1998

Polyunsaturated fatty acids

n-3 Polyunsaturated fatty acids and immune function. **57**, 503, 1998

In vitro and *in vivo* effects of *n*-3 polyunsaturated fatty acids on human monocyte function. **57**, 521, 1998

The effects of dietary *n*-3 polyunsaturated fatty acids on neutrophils. **57**, 527, 1998

Dietary *n*-6 and *n*-3 fatty acids in immunity and autoimmune disease. **57**, 555, 1998

n-6 and *n*-3 Essential fatty acids in rheumatoid arthritis and other rheumatic conditions. **57**, 563, 1998

Influence of increased long-chain *n*-3 polyunsaturated fatty acid (PUFA) intakes on the insulin sensitivity of glucose disposal in middle-aged men. **57**, 39A, 1998

Influence of increased long-chain *n*-3 polyunsaturated fatty acid (PUFA) intakes on postprandial lipaemia in middle-aged men. **57**, 40A, 1998

Bioavailability of *n*-3 polyunsaturated fatty acids (*n*-3 PUFA) in microencapsulated fish oil. **57**, 149A, 1998

Post-menopausal women

Carotid atheromatous plaques, intimal-medical thicknesses and plasma homocysteine levels in asymptomatic post-menopausal women. **57**, 25A, 1998

Randomised controlled trial of supplementation of Efacal *v.* calcium on bone mineral density in post-menopausal women. **57**, 28A, 1998

Postprandial metabolism

Exercise and postprandial lipid metabolism. **57**, 63, 1998

The decrease in postprandial lipaemia evident after a bout of exercise is independent of substrate utilization during the exercise. **57**, 14A, 1998

Influence of increased long-chain *n*-3 polyunsaturated fatty acid (PUFA) intakes on postprandial lipaemia in middle-aged men. **57**, 40A, 1998

Enrichment of chylomicron-triacylglycerol during the postprandial period following oral administration of [1-^{13}C]palmitic acid, [1-^{13}C]stearic acid and [1-^{13}C]oleic acid. **57**, 40A, 1998

The gastrointestinal handling and postprandial metabolism of [1-^{13}C]stearic acid in healthy women. **57**, 41A, 1998

Reproducibility of lipaemic, insulinaemic and glycaemic responses to a high-fat, mixed meal. **57**, 122A, 1998

The effect of fish oil supplementation on fasting and postprandial lipid levels in individuals with an atherogenic lipoprotein phenotype (ALP). **57**, 122A, 1998

Potatoes

Acute metabolic effects of freshly cooked *v.* cooked and chilled potatoes. **57**, 47A, 1998

Prader-Willi syndrome

Resting metabolic rate is reduced in Prader-Willi syndrome as a result of altered body composition. **57**, 100A, 1998

Plasma leptin, insulin resistance, lipids and body fat distribution in lean and obese healthy and Prader-Willi syndrome subjects. **57**, 100A, 1998

Comparison of body composition analysis using whole body magnetic resonance imaging, bioimpedance and skinfold anthropometry in lean and obese healthy and Prader-Willi syndrome subjects. **57**, 112A, 1998

Primates

Measuring food intake in wild animals: primates. **57**, 321, 1998

Protein degradation

Comparison between the *in situ* and the Cornell methods of estimating protein degradability in a variety of ruminant feedstuffs. **57**, 153A, 1998

Protein–energy malnutrition

Protein–energy malnutrition in older subjects. **57**, 587, 1998

Protein–energy supplementation

An evaluation of protein energy supplementation in medically ill admissions to a geriatric unit. **57**, 88A, 1998

Protein metabolism

The effect of prolonged exercise on protein metabolism in top triatheletes during carbohydrate ingestion. **57**, 7A, 1998

Quercetin

Quercetin levels in plasma and resistance of plasma to oxidation after fried onion breakfast. **57**, 4A, 1998

Radioactive labels

Similar recovery of $^{13}CO_2$ and $^{14}CO_2$ in breath during infusion of bicarbonate labelled with ^{13}C and ^{14}C simultaneously. **57**, 52A, 1998

Radiotherapy

The nutritional consequences of radiotherapy in early laryngeal squamous cell cancer (LSCC). **57**, 105A, 1998

Refeeding syndrome

Refeeding syndrome: the need for practical guidelines. **57**, 114A, 1998

Renal patients

Standard renal parenteral nutrition does meet our patients' nutritional requirement. **57**, 118A, 1998

Reproduction

Leptin and reproduction. **57**, 421, 1998

Resting metabolic rate

Resting metabolic rate is reduced in Prader-Willi syndrome as a result of altered body composition. **57**, 100A, 1998

Resting metabolic profile of patients with quiescent ulcerative colitis and comparison with controls. **57**, 143A, 1998

Rheumatoid arthritis

The role of nutrition and diet in rheumatoid arthritis. **57**, 231, 1998

Riboflavin

An investigation into the effect of riboflavin deficiency induced post-weaning on the morphology and cytokinetics of the rat small intestine. **57**, 110A, 1998

Relationship between riboflavin status, methylenetetrahydrofolate reductase (MTHFR) genotype and plasma homocysteine in healthy elderly subjects. **57**, 146A, 1998

Response of erythrocyte glutathione reductase activation coefficient (EGRAC) and plasma pyridoxal-5′ phosphate (PLP) to riboflavin supplementation (a pilot study). **57**, 146A, 1998

Rumen

Comparison between the *in situ* and the Cornell methods of estimating protein degradability in a variety of ruminant feedstuffs. **57**, 153A, 1998

Effects of isoenergetic supplements of starch, sucrose, lactose and whey permeate on rumen metabolism and digestion. **57**, 154A, 1998

Effects of replacing starch with whey permeate, lactose and sucrose under steady-state conditions on rumen metabolism and digestion. **57**, 163A, 1998

Saturated fatty acids

Enrichment of chylomicron-triacylglycerol during the postprandial period following oral administration of [1-^{13}C]palmitic acid, [1-^{13}C]stearic acid and [1-^{13}C]oleic acid. **57**, 40A, 1998

The gastrointestinal handling and postprandial metabolism of [1-^{13}C]stearic acid in healthy women. **57**, 41A, 1998

Schoolchildren

The anthropometric status of schoolchildren in five countries in the Partnership for Child Development. **57**, 149, 1998

Some micronutrient intakes of Scottish schoolchildren aged 5½ to 8½ years compared with intakes at age 1½ to 4½ years. **57**, 137A, 1998

Selenium

Use of glutathione peroxidase-1 (GPX1) activity and mRNA levels and other selenium-dependent parameters to assess selenium requirements in female rats throughout the life-cycle. **57**, 155A, 1998

Dietary intake of selenium in the UK. **57**, 162A, 1998

Sensory evaluation

Determining consumers preferences using sensory evaluation. **57**, 22A, 1998

The influence of information and extended sensory exposure on acceptance of reduced-fat products. **57**, 130A, 1998

Sepsis

Treatment of central venous catheter (CVC) sepsis in young children receiving long-term parenteral nutrition. **57**, 97A, 1998

Short-chain fatty acids

Acarbose increases caecal short-chain fatty acids (SCFA) and uptake into portal vein. **57**, 43A, 1998

Sir David Cuthbertson Medal Lecture

Metabolic abnormalities and wasting in human immunodeficiency virus infection. **57**, 373, 1998

Sled dogs

Diet and food intake of sled dogs during a multi-stage race. **57**, 21A, 1998

Small intestine

Glutamine utilization and oxidation by the rat oesophagus and duodenum. **57**, 99A, 1998

An investigation into the effect of riboflavin deficiency induced post-weaning on the morphology and cytokinetics of the rat small intestine. **57**, 110A, 1998

Smoking

The thermolabile 5, 10-methylenetetrahydrofolate reductase (MTHFR) gene, mild hyperhomocysteinaemia and B-group vitamins. **57**, 26A, 1998

Social class

Diet diaries and difficulty with the "three R's" in a 43-year-old British birth cohort. **57**, 23A, 1998

Sodium

The effects of sodium ingestion on heat acclimation responses. **57**, 31A, 1998

An examination of the effect of dietary sodium restriction on energy and protein intake in the treatment of ascites in cirrhosis. **57**, 115A, 1998

Soyabean

Inter-individual variation in soyabean isoflavone metabolism: the role of habitual diet. **57**, 161A, 1998

Sport

Iron status in a group of sportsmen and women belonging to the National Institute of Physical Education (Spain). **57**, 16A, 1998

Natural sporting ability, birth weight and predisposition to cardiovascular disorders: study of British former soldiers. **57**, 30A, 1998

Spreadsheet

A spreadsheet programming model for linear and stochastic feed formulation problems. **57**, 163A, 1998

Sterility

Should all-in-one parenteral nutrition mixtures be pre-incubated before testing for sterility? **57**, 98A, 1998

Stoma infection

Percutaneous endoscopic gastrostomy (PEG) feeding: too little too late? **57**, 93A, 1998

Stroke patients

Pilot study of a percutaneous endoscopic gastrostomy clinic for stroke patients. **57**, 94A, 1998

Sucrose

Postprandial lipaemia in response to sucrose intake in middle-aged men with CHD risk factors and matched controls. **57**, 151A, 1998

Sugars

Lack of preference-reinforcing effects of different sugars. **57**, 131A, 1998

Effect of advice to simultaneously reduce both dietary fat and sugar, or advice to reduce dietary fat alone on body-weight status: results from a 6-month intervention study. **57**, 136A, 1998

Supermarket music

The effect of in-store music on consumer choice of wine. **57**, 169A, 1998

Supplementation

The effect of acute dietary creatine supplementation upon indices of renal, hepatic and haematological function in human subjects. **57**, 17A, 1998

Surgery

Some aspects of the metabolic response to surgical trauma. **57**, 225, 1998

The effect of chronic acipimox administration on nutrient selection and energy balance following surgery. **57**, 124A, 1998

The evaluation of an undernutrition risk score to identify surgical patients at risk of malnutrition on admission. **57**, 144A, 1998

Sympathetic nervous system

Regulation of leptin production: a dominant role for the sympathetic nervous system? **57**, 413, 1998

Taste preference

Taste and flavour perception. **57**, 603, 1998

Taste, palatability and the control of appetite. **57**, 609, 1998

Development of food acceptance patterns in the first years of life. **57**, 617, 1998

Taste and appetite regulation in the elderly. **57**, 625, 1998

Clinical undernutrition states and their influence on taste. **57**, 633, 1998

Taste and flavour: their importance in food choice and acceptance. **57**, 639, 1998

Weight status, taste preferences and dietary choice. **57**, 130A, 1998

Lack of preference-reinforcing effects of different sugars. **57**, 131A, 1998

Correlation between taste and toxicity of cassava (*Manihot esculenta* Crantz) roots. **57**, 132A, 1998

Taurine

Taurine modulates immune response, and reduces bacterial translocation and gut atrophy in a murine model of sepsis. **57**, 143A, 1998

Tea

Teas and wines as potentially important sources of dietary antioxidants; an *in vitro* comparison study. **57**, 3A, 1998

Green tea and *in vivo* antioxidant status; post-ingestion changes in plasma ferric reducing/antioxidant power (FRAP) confirm absorption and systemic distribution of polyphenolic tea antioxidants. **57**, 149A, 1998

Tomato

The effect of amount and composition of added oil on the ability to trap the geometric isomers of lycopene from tomato juice after boiling. **57**, 159A, 1998

***Trans* fatty acids**

The effects of two commercially available spreads on plasma lipoproteins in human subjects. **57**, 48A, 1998

Contribution of foods to *trans* fatty acid intake in a group of Irish adults. **57**, 150A, 1998

Trans fatty acid levels in adipose tissue of Irish adults. **57**, 164A, 1998

Transit time

Gastrointestinal transit in rats adapted to a high-fat diet. **57**, 24A, 1998

Gastrointestinal transit adaptation to force-feeding high-fat meals in adult rats. **57**, 38A, 1998

Triacylglycerols

An *in vitro* study of glycerol-3-phosphate dehydrogenase (*E.C.* 1.1.1.8; GPDH) activity as a marker of triacylglycerol synthesis in ovine adipocytes taken from animals at different stages of development. **57**, 41A, 1998

Non-invasive measurement of intracellular skeletal muscle triacylglycerol. **57**, 103A, 1998

The postprandial cholesterol response is associated with fasting plasma triacylglycerol concentrations. **57**, 151A, 1998

Ulcerative colitis

Resting metabolic profile of patients with quiescent ulcerative colitis and comparison with controls. **57**, 143A, 1998

Undernutrition

Reproductive outcomes in women prenatally exposed to undernutrition: a review of findings from the Dutch famine birth cohort. **57**, 129, 1998

Clinical undernutrition states and their influence on taste. **57**, 633, 1998

Assessment of energy content of menus, energy intakes and wastage of food in two Irish teaching hospitals. **57**, 144A, 1998

The evaluation of an undernutrition risk score to identify surgical patients at risk of malnutrition on admission. **57**, 144A, 1998

Vegetable consumption

Is dietary consumption of fruit and vegetables reflected in the plasma carotenoid profiles of older people? **57**, 3A, 1998

Are flavoured vegetables acceptable to adolescents? **57**, 131A, 1998

Vegetarians

Fasting levels of plasma bile acids in Asian vegetarians, Caucasian vegetarians and Caucasian omnivores. **57**, 139A, 1998

Vitamin A

Vitamin A and public health: challenges for the next decade. **57**, 159, 1998

Urinary neopterin as a marker of infection and the lack of influence of vitamin A supplementation in infants. **57**, 157A, 1998

Vitamin D

Vitamin D receptor gene polymorphisms and circulating osteocalcin in healthy young Irish women. **57**, 158A, 1998

Vitamin E

Differential effects of supplementation with vitamin E analogue on antioxidant enzyme expression in human skin fibroblasts exposed to ultraviolet B. **57**, 34A, 1998

Vitamin intake

Circulating concentrations of vitamins D and C in a cross-sectional group of patients on long-term tube feeding at home or in residential care. **57**, 109A, 1998

Intake of selected nutrients from vitamin and mineral supplements by subjects in the EPIC Study, Norfolk, UK. **57**, 154A, 1998

Comparison of breast-milk concentrations and dietary intakes of retinol, carotenoids and a-tocopherol between Irish and Pakistani mothers. **57**, 158A, 1998

Vitamin status

Effect of dietary fibres on vitamin A, vitamin E and folate status in rats. **57**, 27A, 1998

Voluntary food intake
Effect of nasogastric tube feeding regimens on voluntary food intake and hunger in healthy volunteers. **57**, 108A, 1998

Water balance
A comparison of the daily water turnover rates in independent and dependent elderly. **57**, 32A, 1998

Water flux
Net and unidirectional water fluxes from four oral rehydration solutions perfused into the intact human jejunum. **57**, 31A, 1998

Weight loss
Exercise prescription for weight management. **57**, 93, 1998
Prevalence of undernutrition and weight loss changes during the course of hospitalization among patients admitted to two Dublin hospitals. **57**, 10A, 1998

Xenobiotic-metabolizing enzymes
The effect of the citrus phytochemicals limonin and nomilin on xenobiotic metabolizing enzyme activity in the rat liver and lung. **57**, 160A, 1998

Yoghurt
Consumption of yoghurt containing modified fat increases satiety and reduces subsequent food intake. **57**, 121A, 1998

Zinc
A role of zinc in the regulation of gene expression. **57**, 307, 1998
